1 July 1965

UNITED STATES INTELLIGENCE BOARD
COMMITTEE ON DOCUMENTATION

TASK TEAM I - CONTENT CONTROL

Minutes of the Twenty-second Meeting, 18 June 1965

Members or Their Representatives Present

NSA

DIA

STATE

CSS

Others Present

None

1. The minutes of the twenty-first meeting were approved. Members reported manhours spent in preparing for this meeting.

2. The team continued its deliberations on the area aspects of content control. [] reported that he had applied the resolutions developed for the "controversial" entries at the last meeting. This application had given rise to a number of second order problems which he presented to the group for resolution. A final draft of the politico-geographic list of entities will be prepared for approval at the next meeting. In the course of discussion of these problems, criteria for establishing items were developed as follows:

- a. Independent and quasi independent states and neutral zones.
- b. Territories, including islands or island groups which exceed 750 miles from their political superior.
- c. Island groups wherever all islands of the group have a single political affiliation. Where islands within a group have

- 2 -

different political affiliations, these affiliations will be respected.

d. International Bodies of Water.

3. The group then turned its attention to grouping of these entities on a geographic basis. Discussion of various requirements ensued. The problems of dealing with political entities which span more than one continent were discussed, i.e., USSR, Turkey, and the UAR. The "indefinable" Middle East received considerable attention as did the treatment of the African continent. Decisions were made and the tentative grouping developed will be put in draft form for discussion at the next meeting.

4. The next meeting will be held 0930-1600, 8 July 1965, Room 2E45 at CIA Headquarters. All-day parking permits will be provided as in the past. [] will provide another draft of the Armed Forces section of the subject content control scheme. Also draft #3, Identifiers, prepared by [], draft #5, Science & Technology, prepared by [] and Mr. Whipp's statement on the use of the terms Communism and Communist in the content control scheme will be considered.
